

# COMPUTER CLASSES

in your child's school

Is there a right way for your child  
to learn about computers?

Make It Fun!

YES!!!

## Give Individual Attention

Classes have a maximum of 4 students and are offered in your child's school.

## Provide Great Teachers

Our Teachers are academically trained to teach and to encourage young children.

## Utilize the Computer as a Tool

Our curriculum is developed by professional educators who know what, how and when children best learn both academic and technical skills.

## Learn How to Learn

Students routinely engage with new software titles. The variety and challenge nurtures confidence & curiosity.
